PROFILE

As a passionate frontend developer with over 3 year of experience, I have a passion for creating responsive and visually appealing websites that provide a seamless user experience. I am a firm believer in the mobile-first approach, which ensures that the website is optimized for mobile devices and provides a consistent experience across all devices.

EXPERIENCE

Bitmax, Frontend developer   June 2024- Present

- Developed the frontend for Bitmax.ir, an Iranian crypto-asset exchange
- Designed and optimized responsive user interfaces with Next.js and React, improving load times and maintainability
- Implemented secure authentication and token-refresh flows using Redux and axios interceptors

Dana Cloud, Frontend developer   Feb 2025

- Developed the frontend for DanaCloud.com, a global data-center solutions platform.
- Engineered a robust i18n framework in Next.js, seamlessly powering English, Korean, and additional locales.
- Built a responsive, mobile-first UI with Next.js and Tailwind CSS, ensuring consistent experiences across desktop and handheld devices.

Mann-E, Frontend developer   Nov 2023- Feb 2024

- Built the frontend portion of a generative AI that converts text to vector (SVG).
- Created a responsive website using Tailwind CSS for design and Redux for state management.
- Developed pages and reusable components using Next.js.

OPEN-SOURCE PROJECTS

Zood Food

- Developed a food ordering React project, integrating Context API for authentication, Redux for cart handling, and React-Toastify for notifications.
- Utilized Express.js with JWT for the backend, Axios for handling requests, and Tailwind CSS for styling the application.

Task Tracker

- Developed a to-do list application using React.js with Redux for task storage.
- Implemented features for adding, editing, and deleting tasks within the application.
- Styled the user interface using Tailwind CSS for a visually appealing design.
